**Footnotes:**

[1] Number of underlying option shares equals number of option contracts multiplied by 100.

[2] Client did not hold stock options prior to class period.

[3] Pursuant to the PSLRA, shares retained after the class period are valued at the higher of: (A) the actual sale price or (B) the average closing price from the day of the corrective disclosure(s) to the day of sale (whichever reduced losses) or (C) the average closing price for 90 days after the corrective disclosure(s) if the shares were not sold in the 90 days after the end of the Class Period.
